

DEODORANT *INGREDIENTS & BENEFITS*

Benefits of Tallow

RICH IN VITAMINS, MINERALS & EMOLLIENTS

Tallow is full of fat soluble vitamins including A, D, E, & K. It is also full of anti-oxidants which reduce oxidative stress on the skin and decreases signs of aging. The rich fatty acid profile including oleic, palmitic and steric acid penetrate deeply to bring moisture to the skin for a long lasting glow.

HELPS HEAL THE SKIN

Instead of consuming collagen, tallow gives your skin the building blocks to make it. Tallow contains anti-inflammatory properties that can assist in soothing irritated, damaged or inflamed skin. Coupled with its plentiful vitamins and minerals, tallow can reverse skin damage and also be beneficial for treating eczema, psoriasis, rosacea, acne, scars, wrinkles, cuts & burns.

Benefits of Essential Oils/Clays

BERGAMOT

Rich in anti-oxidants that protect the skin from environmental stressors like pollution and UV rays. Bergamot helps prevent premature aging including fine lines, wrinkles & hyperpigmentation. It also contains anti-inflammatory properties. Its aroma is uplifting, fresh and long lasting.

ARROWROOT POWDER

Arrowroot powder is a healthy, natural powder that absorbs moisture without drying the skin. Gentle and soothing, arrowroot will keep you dry without harmful synthetics.

NATURALLY COMPATIBLE WITH YOUR SKIN

The chemical make up of tallow is extremely close to the natural oils produced by human skin. The similarities allow it to blend seamlessly with your skin's natural barrier, providing essential nutrients without clogging pores or causing irritation. For those with sensitive skin, tallow can be a soothing and effective option.

VANILLA

Aromatic quality of natural vanilla is a favourite essential oil that gives a warm, sensual scent meant to invigorate the senses.

BENTONITE CLAY

This clay simulates a sponge that draws out and then absorbs sweat- without clogging pores. At the same time it maintains proper pH on the skin hindering odour causing bacteria. Bentonite clay works double duty by drawing out toxins from previous products, all while providing a velvety texture that glides on effortlessly.

Usage/ Directions/Warnings:

Apply underarms as desired. Discontinue use if irritation occurs.

TIP: Natural deodorants work best after detoxifying the body of commercial products first. Use Smokin' Sixes Detox Mask on underarms for at least 2 weeks to help the lymphatic system of built up toxins.
